

14 Day Checklist

- ☐ **Web Academy:** Go through the Onboarding Course ASAP - this can be done while you wait for your onboarding meeting
- ☐ Join your Discord server (link can be found in one of the first Onboarding lessons) and use **your first and last names**, so we know who you are (ex Candi.Beamen - *this is my username if you ever need me*). You can now [change your nickname per server](#)
- ☐ Make sure to read **all** pinned posts in the Discord Channels
- ☐ Ensure you are marking code as a **spoiler** in the **#post-your-projects** channel
- ☐ Create a [free Loom account](#) and make your first video titled "Why I'm learning to code and why I joined Devslopes" ([details below](#))
 - ☐ So we can feature you on our Student/Alumni page, fill out this [Google Form](#) with your information and link to your Loom. You will also need to upload your profile picture.
 - ☐ Post a link to your video to the General Channel in your Discord server to introduce yourself to everyone
- ☐ Install any tools needed for the Academy
- ☐ Complete at least 10 lessons (this does not include the introductory lessons)
- ☐ Submit one (1) assignment - make sure you **zip your project** folder like Mark shows in the introduction module
- ☐ Join one (1) weekly meetup - every Saturday @ 9am CT - link will be in General channel of Discord prior to meeting
- ☐ Submit two (2) weekly reports (regardless of your progress) - *Due Sundays*
 - Weekly report template can be found in the pinned messages (pushpin icon, top right) of the **#weekly-report** channel in Discord. After you click on the link for the Google Doc, go to **File** then **Make a copy** to save to your own Google Drive, or download it as a Word doc, and update weekly as needed. If you are trying to find it on your phone, you will need to tap/swipe over to the people section while in the **#weekly-report** channel and you'll see the pinned message there.
- ☐ **Web Academy:** Make sure to read [this Gist](#) on how to get help with your code. If your question is not formatted correctly, you will be asked to resubmit it in the correct format, slowing down your help.
- ☐ Make sure you know how to do code snippets in Discord - [This link explains how to use markdown within Discord](#), including code snippets (Also in the video within the Gist above)
- ☐ Create [LinkedIn](#) profile
- ☐ Create [GitHub](#) profile

- ☐ **Create a schedule for yourself of when you plan to learn/code - put this on your calendar like you would any other important appointment!!!** [Here is an example of what your schedule could look like](#). Feel free to copy the Sheet and adapt to your schedule.

For the Student Alumni page here's what we're looking for:

1. Who you are.
 2. What you do for a living.
 3. Why are you interested in programming?
 4. Why did you choose Devslopes for your education
- You can get an idea of what a video could look like, here are two examples:
 - [Justin Maidment](#)
 - [Aaron Sterling](#)
 - You can record the video with the Loom app off your phone with the vertical mode.
 - Make sure your video is downloadable so we can save it (in the event you need to delete older Looms in the future)
 - When you have finished, copy the link and fill out this [Google Form](#), and make sure you have a profile picture to upload as well

Additionally, if you want to show some extra support for us, we'd love you to leave a review about your experience with us and your goals on our Facebook page. You can leave the review here:
